Forest Allies is a Community of Practice focused on forests where we build and foster unique partnerships to expand our collective reach and impact within forests – beyond our individual supply chains - by empowering forest communities in critical forest ecosystems and landscapes.

GOALS & OBJECTIVES
By working to build capacities and empower forest communities we seek to generate the following outcomes:

1. Increased biodiversity
2. Protected & restored forests
3. Climate mitigation and adaptation
4. Stronger livelihoods
5. Empowered communities

Our main vehicle for delivering on these outcomes is the implementation of an Integrated Community Forest Management model. Implementation of this model is led by Rainforest Alliance and their partners and supported by the Forest Allies Community of Practice.
