INTRO
**Follow the Frog** is our annual global marketing campaign, which aims to help consumers make better choices, from changing small everyday habits to purchasing with purpose by looking out for our frog seal on products.

**Why a frog?** As an indicator species, the presence of the frog is a clear sign that the natural ecosystem is balanced and thriving. When we no longer see the frog, we know that the environment is compromised and other species within that ecosystem will soon suffer if we don’t do something urgently.

That’s why we are asking people to “follow the frog”—to make choices that help, not hurt our planet. To make a little choice, a little change, which we can help amplify.

It’s also an **occasion for brands that work with the Rainforest Alliance to showcase their sustainability commitments** and impacts, both externally (to their consumers) and internally (to their employees and other stakeholders).

**All our partner companies** are invited to participate in our campaign.
